

APPROVED STUDENTS
XXVI SEMINÁRIO LAVERAN & DEANE SOBRE MALÁRIA

Beatriz Carolina Medeiros Rodrigues

Project: Extracellular Vesicles Induced by Antibodies from *Plasmodium vivax* infected patients.

Thesis Advisor: Profa. Dra. Érika Martins Braga

Course: M.Sc - Universidade Federal de Minas Gerais (UFMG)

Beatriz Nogueira Siqueira e Silva

Project: Preliminary evaluation of the dT vaccine impact on the immune response and the cognitive performance in children treated for non-severe vivax malaria.

Thesis Advisor: Prof. Dr. Cláudio Tadeu Daniel-Ribeiro

Course: PhD student - Instituto Oswaldo Cruz / Fiocruz

Caio Silva Moura

Project: Phenotypic analysis of a compound derived from the marine bacterium *Rapidithrix thailandica* as antimalarial drug candidate.

Thesis Advisor: Profa. Dra. Anna Caroline Campos Aguiar

Course: M.Sc student - Universidade Federal de São Paulo (UNIFESP)

Cinthia Magalhães Rodolphi

Project: Kinetics of antibody response against proteins from exo and intraerythrocytic stages of *Plasmodium vivax*

Thesis Advisor: Profa. Dra. Kézia Katiani Gorza Scopel

Course: M.Sc. student - Universidade Federal de Juiz de Fora (UFJF)

Jady Shayenne Mota Cordeiro

Project: Machine Learning Techniques Application in Identification infectivity by *Plasmodium spp.* in *Anopheles spp.* Mosquitoes

Thesis Advisor: Prof. Dr. Vanderson de Souza Sampaio

Course: M.Sc student - Universidade do Estado do Amazonas (UEA)

Janaína Tenório Novaes

Project: Characterization of the protein encoded by the PBANKA_1459100 gene as a gametogenesis activation receptor in *Plasmodium*.

Thesis Advisor: Prof. Dr. Daniel Youssef Bargieri

Course: PhD student - Universidade de São Paulo (USP)

Klauss Kleydmann Sabino Garcia

Project: Brazil towards malaria elimination: scenario and epidemiological behavior of malaria cases and deaths in the Amazon and non-Amazon regions between 2011 and 2020.

Thesis Advisors: Profs. Drs. Walter Massa Ramalho e André Machado de Siqueira

Course: PhD student - Universidade de Brasília (UnB)

Lídia Pereira Barbosa Cordeiro

Project: Identification and characterization of exposed antigens from *Plasmodium spp* on red blood cell surface and recognized by antibodies.
Thesis Advisor: Profa. Dra. Caroline Furtado Junqueira
Course: PhD student - Fiocruz Minas

Marina Lobo da Rocha

Project: Evaluation and Standardization of essential and vegetable oils with repellent activity against the main malaria vector in the northern region of Brazil (*Anopheles darling*).
Thesis Advisor: Profa. Dra. Maísa da Silva Araújo
Course: MSc student - Universidade Federal de Rondônia (UFRO)

Marrara Pereira Sampaio

Project: Phylogenetic analysis of circumsporozoite protein variants from *Plasmodium vivax* (PyCSP) in blood samples from the Brazilian Amazon Region.
Thesis Advisor: Prof. Dr. Ricardo Luiz Dantas Machado
Course: PhD student - Universidade Federal Fluminense (UFF)

Melina Pedroso Merlone

Project: *Mechanisms associated with the benefit of blood transfusion as a therapy in cerebral malaria*
Thesis Advisor: Prof. Dr. Leonardo José de Moura Carvalho
Course: PhD student - Instituto Oswaldo Cruz-Fiocruz

Nayanne Quaresma dos Santos

Project: Epidemiology of Malaria in the Indigenous Lands of the Tucumumaque Park.
Thesis Advisor: Profa. Dra. Rosemary Ferreira de Andrade.
Course: MSc student - Universidade Federal do Amapá (UNIFAP)

Rafael Amaral Donassolo

Project: Evaluation of the immunogenicity of an experimental multi-stage vaccine against vivax malaria
Thesis Advisor: Profa. Dra. Priscilla Fanini Wowk
Course: PhD student - Instituto Carlos Chagas, Fiocruz Paraná

Renato Mateus Santos de Lima

Project: *Gabaergic and glutamatergic dysfunction associated with neurological disorders in experimental cerebral malaria.*
Thesis Advisor: Prof.^a. Dra. Karen Renata Herculano Matos Oliveira
Course: MSc student - Universidade Federal do Pará (UFPA)

Zeca Manuel Salimo

Project: Evaluation of the antiplasmodial activity of natural compounds against *Plasmodium vivax* and *Plasmodium falciparum*
Thesis Advisor: Profa. Dra. Gisely Cardoso de Melo
Course: PhD student -Universidade do Estado do Amazonas (UEA)

AUDITORS

Caio César de Araújo Evaristo

Advisor: Prof. Dr. Cláudio Tadeu Daniel-Ribeiro
